A Dummy Enthroned.

a late lecture in New York, just re his departure for England, Mon D. Conway, talking of England,

How in estimating England it is to reflect that she has been made remade over and over again by necessities to those which are remodeling us. Her ancient con and laws have diminished into antiquarian symbols, the judge's the woolsack, the forms of royalty hardly more; they are a more antique around the actual power of the of to-day. Not that they are idle relics now, but their service and they no longer character the nation. For instance we might conclude that the ver of Tennyson's 'crowned republic' is a contradiction in terms. How a republic preserve a crown? Well, preserve a real crown, but it preserve an apparent crown. The of a crown in England is kept up the environment of England, and not any reverence for royalty. England European power and it has harder to develop and make its free insti among those ancient despotisms we may think

For many years it has been dreaded hated by the other powers of Europe reasons which should win the of America hated because it maintains free thought and free speech it has given an asylum and pro to the hunted patriots of other to Herzen and Freiligrath, Karl Louis Blanc and Mazzini, hated it has opened all questions of past to the tribunal of the present, sheltered with the ægis of its power remorseless inquirer who has ancient creeds, political tradi and social conventions into doubt question from Hume and Bentham Mill and Bradlaugh. For this it has hated and dreaded, and it could have done this had it lowered its symbol of sovereign indepen and equality—the crown.

If the throne of England should be vacant to-morrow, all the Free in the world could not prevent being filled before the year is out, filled by some occupant who would to keep it by despotism. A vacant throne would instantly be the of all the political intrigues of Just one hundred little Ger princes would pull down their pedigrees and find that they had unquestionable right of succession to After quarreling as to which should such a nice morsel, some tenth of the Guelphs would ally him to the barons of the Continent and of England and the first Presi head would hang as high as Cromwell's.

The English people understand very that it is necessary that their throne be occupied by a dummy, but it be occupied. They find that the way to ensure that their mon shall always be filled by a dummy to keep it hereditary. He can't claim dangerous Napoleonic basis on popu will. Even if they could maintain residency amid the hungry royal vul of Europe, they would think of a change with horror. For the of a president is that he shall be able and determined political leader, shall not be a dummy. Sometimes looks very theoretical indeed, but it is precisely what the English do not want in any office above of a Prime Minister, who is their and only President. I heard an statesman say that the only pos danger that could ever arise from throne would be if it were to be in some day by a conscientious and minded man, a danger which just seems very unlikely to arise. Such might interfere with free growth self government of the nation. And could do it just as much if he were President. Louis Napoleon was as a President, and the present President of France has crushed closed public meetings im and, until these last elections, been ruling France with an iron such as England would not toler for a single day.

the English Queen has not one the power of the President of the States. She cannot remove the postmaster or other official office. She has no power to veto or to meddle with politics. Her opinions cannot be alluded to in Parliamentary debate. She cannot her Ministers nor dismiss them is simply a flag, a historic piece of heraldry, and must float as over the heads of a Tory Minis to-day as she did over a Liberal Min yesterday.

A member of the Parliament said to American: "Some of these days you will follow our plans." The replied indignantly 'You mean to say we shall establish a 'Oh, no,' said he, 'to have a is only the accident of our his But we have abolished the one power which once reigned there, you have reinstated it in the of a President.' This is the vein of European radicals who designate a President as a king in a frock coat."

A Terrible War Machine.

The history of the Gatling gun is fa to all, but a stock company is now organized in this city to provide upon the markets of the a military machine that is capable firing over a thousand shots per min and can sweep a field from right to or vice versa without having the of the carriage shifted. There six barrels (as with the Gatling gun) they revolve and are discharged by turning of a crank which propels The cartridges are strung seventy-five on each. When is exhausted it can be replaced by slipping a hook. But one man needed to operate the murderous and if perchance the enemy the works and the opera see that he could not destroy the advancing columns until he could disable the gun by taking out the lock and putting pocket as he fled. This would his own gun being turned upon a decided improvement over the cannons which have to be The inventor is Mr. T. L. late of Shelby county. WHAT THE WORLD WANTS

A NEW INVENTION, WHICH SPECIALLY supplies the wants of the Pacific States, has just been perfected and shaped into a regular WELL-BORING AND PROSPECTING AUGUR. It is constructed on purely scientific principles, and its perfect simplicity of formation well adapts it to all kinds of well-boring and mining purposes. By its use the expense of obtaining water throughout the dry portions of the country, in surface or artesian wells, will be greatly reduced, and for prospecting for minerals it will necessarily supercede all other machines now in use.

This simple and practical machine can now be seen at work and thoroughly examined at Oakland Point Planing Mills. One-third interest in this valuable Patent is for sale.

SAN FRANCISCO.

N. B.—On the 19th day of April, 1876, at which time we were satisfied that the above invention was perfected, we invited a well-known scientific gentleman of San Francisco to examine it, and on the following day this same gentleman, who has been a Professor of Science of the University of Edinburg, and of other prominent Colleges at the East, in our own country, voluntarily sent us the following letter to which we are pleased to refer:

No. 120 Montgomery St., San Francisco, Cal., April 20th, 1876.

MESSRS. PRICE & MORGAN. Dear Sirs: Having at your request examined and practically tested your machine, I take great pleasure in bearing testimony to its value for well-boring. Such results could only be obtained from mature experience of the desiderata requisite, coupled with mechanical skill to devise such appliances so novel as the extension bit and coned auger, worked by a powerful screw, by which the entire system of well boring is changed, facilitated and cheapened, and by the soil or debris being brought directly to the surface without uncoupling, or any disturbance of the screwing or boxing shaft. The operation is made so certain as to leave no question of the great benefits which will speedily accrue to this State from its introduction.

Trusting for you a rich pecuniary success, I remain, gentlemen, yours truly,
WELWOOD MURRAY.

BERKELEY REAL ESTATE
....AND....
Waterworks Company.

THIS COMPANY IS ORGANIZED for three main purposes: FIRST—The purchase and improvement of 220 acres of land near the State University. SECOND—The immediate construction on a portion of said land of a first-class hotel, with numerous cottages and villas; and THIRD—The construction of water works of such a character as will secure a sufficiency of water for the wants of Berkeley for many years to come.

The site of the land is extremely picturesque and charming. The property contains within itself the invaluable water privileges which are necessary for the water works—one reservoir alone will have a capacity of one hundred and fifty millions of gallons, principally fed from the Cardonices Creek.

The Company is organized with 5,000 shares of $100 each, payable in installments of FIVE DOLLARS per share per month.

The names of the Directors are a sufficient guarantee that the affairs of the Company will be judiciously and efficiently conducted.

Shares can be had on application to the Secretary or any of the Directors. Buy them. They will prove a splendid investment.

I WOULD RESPECTFULLY INFORM THE public of Oakland that I have still in hand a thorough

PAINTING ESTABLISMENT
AT
No. 814 Broadway
IN THIS CITY

And that I am now prepared to paint all kinds of Plain and Fancy

SIGNS,

Also to manufacture plain and fancy

Window Shades,

for stores and private dwellings at prices that defy competition. ☞ Heretofore parties putting up large Store Shades here have sent their orders to San Francisco to get the Shades made, and have been compelled to pay exorbitant prices for them, as there has been two or three profits to be added to the original cost. This can now be avoided by patronizing the OAKLAND SHADE FACTORY and getting better work for less money. My recommendations are "My work when finished." My references are "Any person that I ever worked for."
Yours respectfully

WHAT THE WORLD WANTS

A NEW INVENTION, WHICH SPECIALLY supplies the wants of the Pacific States, has just been perfected and shaped into a regular WELL-BORING AND PROSPECTING AUGUR. It is constructed on purely scientific principles, and its perfect simplicity of formation well adapts it to all kinds of well-boring and mining purposes. By its use the expense of obtaining water throughout the dry portions of the country, in surface or artesian wells, will be greatly reduced, and for prospecting for minerals it will necessarily supercede all other machines now in use.

This simple and practical machine can now be seen at work and thoroughly examined at Oakland Point Planing Mills. One-third interest in this valuable Patent is for sale.

DEMOCRATIC CONVENTION.

Stormy Session—Election of Delegates to the State Convention and Selection of a County Central Committee.

The Democracy of Alameda county held a rather inharmonious Convention on Saturday afternoon. The object of the Convention was the election of thirteen delegates to the State Convention, which assembles in San Francisco on Wednesday next, and the selection of a County Central Committee.

THE BONE OF CONTENTION

Was the admission or rejection, as members of the Convention, of the gentlemen recently expelled from the Oakland Democratic Club—the Club having protested against their appointment as delegates by the County Committee and recommended the substitution of other names. The fight on this point was first made for the chairmanship. J. West Martin being the standard bearer of the Straights or Expulsionists, and Joe Roberts the chosen of the Conciliators. J. F. Black, of Livermore, a member of the State Central Committee, was chosen temporary Chairman, both Martin and Roberts having declined to contend for that honor at the risk of stirring up bad blood.

THE FIGHT

Was thus transferred from the Convention to the Committee on Credentials, which divided and made two reports, both agreeing upon J. F. Black for President, L. Wintringer and Dan. W. Gelwicks for Vice Presidents and A. M. S. Carpenter for Secretary, but the minority (A. P. Moore and L. Wintringer) recommended that in the place of Thomas O'Neil, S. D. Cronin, A. McGeary, C. Brodhoff, and Wm. Searing, there be substituted the names of Thos. Ahearn, A. J. McGowan, A. J. Riley, W. M. Graham and H. H. Watson as delegates to the Convention.

After much acrimonious debate, it was agreed to act upon the question of expulsion of each of the accused separately, and on taking up the case of S. D. Cronin, the vote stood 91 to 18 for his retention.

THE STATE DELEGATES.

This vote having settled the question at issue, the Convention proceeded to the election of delegates to the State Convention, which resulted in the choice of the following named gentlemen:

Oakland—J. West Martin, M. V. O'Brien, Thos. Bagge and P. Duffy.

Brooklyn—L. Wintringer and Walter Turnbull.

Eden—James Demont and John Kaufman.

Murray—F. J. Clark and J. F. Black.

Washington—Henry Smith and Dr. S. O. Bateau.

Alameda—H. H. Haight.

CENTRAL COMMITTEE.

The following were elected a Central Committee:

Newton Ingraham, Captain E. Hackett, J. W. Thurman, James Demont, H. F. Wilcox, Michael Rogan and R. H. Magill.

A resolution was then adopted, discountenancing the plan of appointing delegates, and directing the calling of primaries hereafter.

A collection was taken up, and the Convention adjourned *sine die*.

Ferris' Suicide.

Nothing further has been elicited regarding the suicide of Judge Ferris, than was published in the Sacramento *Bee* of Saturday. That paper states a gentleman supposed to be B. F. Ferris, but answering to the name of H. A. Johnson, was seen and spoken to by a runner on board the steamer Amador early Saturday morning. He was then setting on the guards of the upper deck with his feet tied together. The runner left him but soon returned only to find him missing. He is supposed to have jumped overboard and drowned. In his stateroom was found a note addressed to "His Dear Wife and Daughter," stating that he was about to take poison and then drown himself, which was signed "H. A. Johnson, alias B. F. F." He also wrote a letter addressed to Mrs. B. F. Ferris, Oakland, and gave it to the clerk of the boat to forward.

Centennial Benefits.

The Centennial Fund Benefits at Dietz Hall Saturday afternoon and evening, were of the first order, and were well attended. The tragedian John McCullough, and Miss Nellie Holbrook as Claude Melnotte and Pauline in the "Lady of Lyons," were all that could be desired. Miss Holbrook has appeared in Oakland on several previous occasions, and always to add to her fame as an elocutionist of the first order. Her Pauline was done in a manner to charm all present and win encore upon encore. We doubt if it could be improved upon on this coast. The ventriloqual performance of Prof. Livingstone was good. The dancing of Mdlle Rita was magnificent and the music of the Fourth Artillery Band was grand.

Proclamation.

WHEREAS, We are informed that the present Attorney of this City, has advised the Mayor and Board of Supervisors that they have no legal right to pay the Emperor his Imperial revenues, and considering that the city has at least the moral obligation to protect their honor and interest. We, Norton I, Da Gratia, Emperor of the United States and Protector of Mexico, do hereby order the removal of the present incumbent, and appoint H. H. Harris to fill his place, who we trust will better protect the interests of the city and nation.

Given in Oakland, under my hand and seal, this 22d day of May, 1876.

NORTON I.

New Buildings.

Messrs. Donovan & Son, architects and builders, of 859 Broadway, have drawn plans and are superintending the construction of the following buildings: A two-story building corner of Henry and Seventh streets, fifty feet front by sixty-two feet deep; stores and dwellings, to be fitted up with all modern conveniences; for F. Mitchell; to cost $7,000. For Captain J. J. Cadogan, two dwellings on Sixth and Harrison; to cost $5,000. A store on San Pablo avenue for J. J. O'Shea, to be used by himself; to cost $2,000.

CALL AT WILSON'S, NO. 961 Broadway, and make a note of the hard time prices. There is no better time than the present for making purchases in Watches, Jewelry, etc., if the buyer considers the saving of money an object. All repairing promptly done and satisfaction guaranteed.

THE NATIONAL GOLD MEDAL was awarded to Bradley & Rulofson for the best Photographs in the United States, and the Vienna Medal for the best in the world. Ascend in the Elevator. 429 Montgomery street, San Francisco.

BACON'S PALACE OF SWEETS, 866 Broadway, is the place to get a box of fine home-made by French Candies. They are received daily, per Bacon's Express, from five of the most prominent makers in San Francisco.

WILSON, AT NO. 961 BROADWAY, has on display as fine and choice a stock of Watches, Clocks and Jewelry as can be seen this side the bay.

FIRST M. E. CHURCH.

The New House of Worship—Dedicatory Ceremonies—History of the Organization, Etc.

At an expense of $39,000 the First Methodist Episcopal Church have erected a magnificent and commodious edifice for the accommodation of their large and growing membership. The interior of the building is well ventilated, its ornamentations being decorous and pleasing in effect, and nicely lighted. The exterior has a graceful and symetrical appearance, the style of architecture being the upright English Gothic. This is said to be the only church on the coast that is built in this manner.

DESCRIPTION OF THE STRUCTURE.

The dimensions of the building are, extreme length, one hundred and ten feet; extreme width, eighty-six feet; and hight from pavement to spire, one hundred and eighty-five feet and four inches. The basement is fourteen feet in the clear and all above ground. The space has all been admirably utilized. There is a lecture room fronting on Fourteenth street 44x61 feet in size; also an infant class room 15x35 feet, with folding doors opening into the lecture room. Then in the rear is a parlor 25x30 feet; and a refreshment apartment opening into the parlor 15x35 feet in dimension. There is likewise a kitchen 12x16 feet. In one tower is a class room 12x16 feet, and in the other a library 12x16 feet. Stairs lead up over the kitchen between it and the orchestra where the pastor has his study 12x16 feet. The main story is thirty-nine feet in the clear. On either side of the front corners is a flight of stairs eight feet wide. The vestibule is nine feet wide to conform to the shape of the seats. The dimensions of the main room are 79x61 feet, exclusive of the galleries. The number of pews on the main floor is 102, and there are thirty-six slips in the galleries. These, without the aisles, being pressed into the service, will seat comfortably 1,075 persons, and the church can hold 1,300 worshipers. The pulpit is three feet four inches above the main floor, and is very spacious and commodious, being eighteen feet in length by six feet in width. The minister's desk is manufactured of black walnut. Three gothic chairs are placed in the pulpit for the pastor and assistants.

THE BUILDERS.

The following gentlemen were the able coterie that provided for and superintended its erection: Church Trustees—Geo. Miller, W. H. Rouse, M. S. Hurd, J. W. Carrick, James Dods; Building Committee—Rev. C. V. Anthony, E. W. Playter, Geo. Miller, W. H. Rouse, and A. A. White. Mr. William Kirk was the architect, the California Bridge Company the constructors, Mr. Starkweather superintended the carpenter work, C. L. Taylor did the upholstering and John Spencer the plumbing and gasfitting.

ITS DEDICATION YESTERDAY.

The dedicatory services were performed yesterday to a congregation numbering fully one thousand persons. Rev. F. F. Jewell, D. D., of San Francisco, delivered the initial sermon in the morning at eleven o'clock. In the afternoon the several pastors of the other churches in Oakland assembled in fraternal greeting to participate in the joyous occasion of the dedication of a new and beautiful structure to the service of God. The ceremonies began at three o'clock and were well and pleasantly performed. In the evening Rev. Thomas Guard, of San Francisco, preached an eloquent sermon to the full capacity of the church.

A RETROSPECTIVE GLANCE.

About fifteen years ago the present pastor, Rev. C. V. Anthony commenced his christian labors in Oakland with a little congregation of fourteen followers of Christ. A church organization was effected and a Sunday school instituted. And under his gracious care and conciliating influence the First Methodist Episcopal Church of Oakland was started upon its career of good and mercy. The tenets of this denomination require a regular change of pastors, so Rev. Mr. Anthony resigned his charge to the following

PASTORS:

Revs. Charles Miller, H. H. Hartwell, Lysander Walker, J. S. Dunn, and W. J. McClay, who well and truly fostered and extended the usefulness of the church organization until Mr. Anthony was enabled to return and with just pride and pleasure realize the importance and wealth his little charge of fifteen years ago had attained. The church has now a large and wealthy membership, and the

SUNDAY SCHOOL

Numbers forty teachers and two hundred and eighty pupils, and possesses a library of one thousand volumes. One article more is needed for the complete furnishing of the church, that is an organ, which will soon be acquired.

Notice to the Public.

The Chinese Company called the See Yups, have in Oakland thirty wash houses and desire to monopolise the business, and refuse to allow other Chinese companies to establish wash houses in the city unless they pay the See Yup Company a royalty of thirty dollars on each house, and not under any condition to have a wash house within ten houses of any See Yup wash houses. The Ning Yung Company have five wash houses in the city, but the See Yup Company are trying to drive them out. The Ning Yung Company assert that the See Yup Company have trumped up a charge of robbery against the owners of one of the Ning Yung wash houses, which charge is now pending before the Police Court. This charge is a made-up plan to injure the Ning Yung Company, and the See Yup Company have stated that they would withdraw the charge if the wash house was shut up.

Vaccination and Small Pox.

For about five weeks the City Health Officer has sit for two hours, twice a week, in his office in the City Hall, waiting for parties to come and be vaccinated free of charge, and none have come, or else they have all gone elsewhere. Now, every one should take all the precautions possible to ward off disease. Oakland is a healthy city, but it is not proof against infectious diseases and epidemics, such as we are subject to as long as ship-loads of pestiferous Chinamen are permitted to enter our harbor. Get vaccinated and, thus as far as possible at the paesent, provide an antidote for infectious Chinamen.

REMOVED—J. BECHTINGER, M. D., Surgeon, Oculist and Aurist, Oakland Point, near West End Hotel; San Francisco, N. W. corner Kearney and Sacramento streets.

LADIES—A FINE LOT OF LADIES' sandals of different patterns. Also, French kid button and lace gaiters, at Holcomb & Outrom, Broadway, between Fourteenth and Fifteenth streets.

PURE GERMAN DOWN FOR SALE at the Oakland Furniture Warerooms, 1105 and 1107 Broadway, between Twelfth and Thirteenth streets, Christian Schreiber, proprietor.

General John Hammond, of the Crown Point Iron Manufacturing Company of Essex County, New York, who, with his wife and two daughters, has been spending some months in this State—a good portion of the time with his old friend, H. H. Havens, Esq., of this city—will start home to-morrow.

The Great Seal of the State of California, manufactured of California woods of natural color by Charles J. Larson for Major D. W. Standeford (and fully described in the TRIBUNE of Saturday), is on exhibition at the drug store of Sanford, Kelsey & Co., southwest corner of Tenth and Broadway, and attracts a great deal of attention.

Feeding Prisoners.

The adoption of a suggestion made by the TRIBUNE saves the City $6,221 60 in twenty months.

Under the watchful eye and economical management of Police Captain D. H. Rand, Oakland feeds her prisoners and feeds them well, at less expense than does any other city, town, county, state or territory on the coast. The plan adopted is the one suggested and urged by the TRIBUNE, prior to, and at the time of the promotion of Detective Rand to the head of the Police Department, and consists in the purchase of the necessary supplies by the Captain of Police, and the preparation of the same by themselves. The economy of

OUR POLICE DEPARTMENT

Is attracting the attention of the authorities of other cities, and is receiving its just meed of praise from the press of the State, while the efficiency of the Department as at present constituted is no less a matter of congratulation and comment. Under the old regime, Captain Tarbett was receiving a salary of $150 per month, and had the contract for feeding the prisoners, which amounted to more than double his salary. Detective Rand was elected Captain of the force, and instructed to feed the prisoners from supplies furnished by contract, and draw on the city for such expense. The following is a statement of this expense, as rendered by Captain Rand: Total number of meals furnished to prisoners from September 20th, 1874, to May 20th, 1876, 42,420—at a total cost of 5¼ cents per meal or 16 cents per head per day—$2,262 40. Under the old contract price—viz: 20 cents per day or 60 cents per head per day—the total cost would have amounted to $8,484. This shows a saving in the one item of feeding prisoners during the period of twenty months of $6,221 60.

CAPTAIN RAND,

Who has the Police force of Oakland in better trim than it was ever before known to be, also ably fills the position of detective without pay, to which officer the city formerly paid a salary of $125 per month. His long experience in police business on this coast, combined with great intuition and fertility of resources, renders him peculiarly fit for the position which he fills with so much credit to himself and satisfaction to the people. One

LITTLE INCIDENT

Will suffice to illustrate at once Captain Rand's patience and his originality. Some time since the residence of Hon. John B. Felton, on Adeline street, was entered by burglars at night and robbed. Capt. Rand visited the premises next morning, and saw the track of a large bare-foot, deeply imbedded in the soft ground of the garden, which had been liberally sprinkled the previous night. He at once procured some plaster Paris and secured an almost perfect cast of the foot. This he laid away in his private office for weeks—and the other day he got the burglar who made the track, and a track made by the plaster cast, fits the fellow's foot "like a glove," even to the big bunion at the junction of the great toe.

HOODLUMS TAKEN IN.

Two Defiant Blackguards Get Part of What They Deserved.

The last boat from San Francisco last night brought over as two foul-mouthed, drunken hoodlums as ever disgraced a civilized community. Once in the cars, with heels cocked up and villainous cigars in their mouths, they opened with a string of blackguardism that would put to blush the vilest habitue of the vilest den in San Francisco. One by one the lady passengers left the car as long as one of them could find a seat elsewhere. Finally officer Nedderman came along, and, hearing some of the mildest expressions used by this precious pair of blackguards, remonstrated with them. At this they opened upon him with a string of abuse and in language the most foul. Nedderman called in officers Bush and McKay, and on arriving at Washington street, off the City Prison, the officers "bounced"

THE BLACK-GUARD RUFFIANS,

And, as might be expected, they howled like a couple of whipped curs. Their defiant and desperate guise changed to one of the most abject supplication. But the officers took them at their word—for desperadoes—and handled them without gloves accordingly. They were seized, dragged out of the car, thrown upon the ground and handcuffed. But for the presence of the officers, they would have been kicked to death by the gentlemen present who had heard of their beastliness. They gave their names as J. Vring and R. J. McConnell, but these are doubtless ficticious. This morning one of them pleaded guilty to a charge of using vulgar and obscene language and the other was tried and found guilty of the same offense. Judge Lentell let them off with $50 or twenty-five days each, but intimated that if such practices were not stopped, somebody would get into trouble.

Collateral Loan and Savings Bank.

The object for which this association is incorporated is to loan money on collateral security, to receive money on deposit, and to transact a general banking business. The prime object, however, is to advance money on pledges of diamonds, watches, plate, furniture, etc., subject to the legal rates of interest—four per cent. per month. The bank will also receive term deposits, of six and twelve months, subject to at least thirty days' notice before being withdrawn, and allow interest thereon at the rate of 1 and 1½ per cent per month, respectively. Such deposits will be loaned out, only upon proper securities and pledges.

The Bank will also receive deposits subject to call or check, and upon such deposits no interest will be allowed.

Many larger banks of this description have for years been in successful operation in Paris, and in all the principal cities of Europe, and in the City of Mexico, under the patronage of their respective governments. The institution in Paris loaned out during the year 1873 the enormous sum of 54,000,000 francs, or about $10,800,000. More recently similar institutions, or banks, have been organized in Boston and New York. No city in the United States offers such splendid inducements for an enterprise of this character as the city of San Francisco, where people are subject to peculiar and sudden reverses of fortune. The quantity of jewelry, plate and articles of value which are pledged in this city yearly, as collateral security, is enormous.

The bank will be managed upon strict business principles: at the same time with a view to its safety and profit, and with liberal dealings to its cusomers.

The stock of the bank is 30,000 shares, of the par value of $50 each; which until further notice will be sold at the bank at $10 per share. this will give a cash capital of $300,000, which loaned out at four per cent. per month will give a monthly return of $12,000 or $144,000 per year, less rent and expenses, say $14,000, will leave $130,000 per year to be divided among the shareholders.

The dividends will be declared monthly after the first two months' business.

The Directory of the bank is composed of well known business men of San Francisco, and as such gives to its customers a guarantee of fair and liberal dealing.

Subscriptions for a large amount of stock have already been received, and subscription books for a limited number of shares, at $10 per share, will, until further notice, be open at the bank.—*S. F. Stock Report.*

Sunday School Concert.

The Sunday School of the First Baptist Church, corner of Brush and Fourteenth streets, gave its regular monthly concert last evening which was in every respect a success, and reflected great credit upon the worthy Superintendent, Mr. Wm. Chamberlin. The exercises of the evening consisted chiefly of the reading of interrogatory scriptural passages, which were promptly answered by other scripture passages by the several members of the school. These readings and answers were interrupted now and then by the singing of an appropriate hymn by the entire school. These concerts take place the third Sunday in each month and all those who take pleasure in such exercises should not in the future fail to attend.

The Berkeley Road.

The work of piling across the arm of the bay between Oakland Point and the willows will be completed to-morrow, as there were, this morning, but thirteen bents to put in. There are two or three culverts to be constructed between the bridge and Berkeley, but nearly all the grading has been completed. It will require some little time to place the string timbers, ties and rails upon the piles, as the road across the tide flat describes a curve.

Police Court.

I. King and R. J. McConnel, the two brutes who blackguarded a number of ladies out of a car last night, were fined $50 each, and in default of payment were sent to prison for twenty-five days apiece. Two drunks got $6 or three days each.

NEW ARRIVALS—I AM NOW REceiving at my store, No. 1057 Broadway, between 11th and 12th sts., a fresh lot of new and fashionable goods. Embracing every article in the line of feet covering, from the finest French kid slippers, to a stoga boot. All of which will be sold at extremely low prices. I invite an inspection of my stock, and it is no trouble to show goods whether persons want to purchase or not.

THOS. F. STEERE, P. M.

An Old Offender.

Capt. Rand and Officer Dodge this morning landed a young man in the City Prison on a charge of buglary. He was found sauntering about San Francisco in a pair of pantaloons recently stolen from the residence of ex-Congressman Higby of this city. He gave the name of John Roberts alias J. Pine He has a partner named Edward Stokes, who was arrested on Friday last. James Pine is now twenty-six years of age. In November, 1870, he was sent to the San Francisco County Jail for ninety days for theft. On the 14th of February, 1873, the same young man, under the name of Charles Richardson, was sent to the State Prison from San Francisco for three years, for buglary. The pantaloons were positively identified by a peculiar mark. The proof against Stokes is not so positive, but a coat and pair of pantaloons taken from him are at the City Prison awaiting identification by the owner.

New Patents.

Through Dewey & Co., Patent Agents, San Francisco, we receive the following advance list of United States Patents, granted to Pacific Coast inventors, viz: David B. Janes, Visalia, cars for one rail railways; Carol E. Kusel and Carl H. E. Bechert, Oroville, pen racks; J. R. N. Owen, Hamilton, Nev., breech-loading ordnance; Arthur R. Watterson, S. F., sash pulleys; Thos. Guerin, S. F., adjustable water gate and gages; Adam Rutherford, Walla Walla, W. T., horse collars; William Smith, S. F., water closet valves; Oscar F. Tiffany, S. F., fruit dryers; Charles Cummings, Virginia City, Nev., (reissue), grinding and amalgamating pans; Edgar H. Whitney, S. F., (trademark), cosmetic.

Respectfully,
ALONZO CRAWFORD, Teacher.

The Departed Schoolmaster.

A. D. A. Champion, late Principal of the Cosmopolitan school, in this city, has written to his wife, and at her request we make the following extract:

I am told, from two or three different sources, that you are getting along very well. You have been presented with sundry luxuries, and lately with a sewing machine, without which, I am told again, you could not begin to sew all the clothing of the children. I am glad that abundance reigns supreme around you; at least, for the dear little ones. May it continue so, until you will be happy to accept some help of mine. Adieu—

TELEGRAPH MINING COMPANY!

ON THE COMSTOCK LODE.

Capital Stock, - - - - - - - - $6,000,000

Divided into Sixty Thousand Shares of One Hundred Dollars Each, Twenty-five Thousand Shares reserved for Working Capita

THE TELEGRAPH MINING COMPANY INCORPORATED UNDER THE LAWS OF THE State of California April 1st 1876, has purchased 900 feet of rich gold and silver mining ground on the celebrated Comstock Lode, upon which are located the California, Consolidated Virginia, Ophir and other well known profitable mines. The mine is situated between the Utah, Orleans and Ward mines and the rock taken from it yields a high return of gold and silver. The Directors have reserved 25,000 Shares of the Capital Stock of the Company for working purposes in order to avoid any danger of being compelled to assess the Stock. Ten Thousand Shares of this reserved Stock will be offered at once for subscription at **ONE DOLLAR** per share. The other 15,000 shares will be disposed of from time to time through the Stock Boards as occasion may require and the Directors may think most profitable for the working of the mine. As soon as the Ten Thousand Shares now offered are taken the Stock will be placed upon the Boards of the respective Stock Exchanges and will at once command a figure more than double the price now asked for the original subscriptions. It is confidently believed that this mine by reason of its location on the Comstock Lode and its close proximity to the Utah will in a short time reach as high a value per share as the last named mine commands, which would be an increase of over twenty five hundred per cent on the price at which the stock is now offered to original subscribers.

The books of the Company will be opened for subscription, April 10th at the office of the Company No. [illegible] Montgomery street San Francisco.

BERKELEY REAL ESTATE AND Waterworks Company.

THIS COMPANY IS ORGANized for three main purposes. ONE, the purchase and improvement of 220 acres of land near the State University; the SECOND, the immediate construction on a portion of said land of a FIRST-CLASS HOTEL, with numerous COTTAGES and VILLAS; and the THIRD, the construction of Waterworks of such a character as will secure a sufficiency of water for the wants of Berkeley for many years to come. The site of the land is extremely picturesque and charming. The property contains within itself the invaluable water privileges which are necessary for the Waterworks; one reservoir alone will have a capacity of 150,000,000 gallons, principally fed from the Cordonices Creek.

A FORTUNE FOR NOTHING!

The Company is organized with 5,000 shares of $100 each, payable in installments of FIVE DOLLARS per share per month. The names of the Directors are a sufficient guarantee that the affairs of the Company will be judiciously and efficiently conducted. Shares can be had on application to the Secretary or any of the Directors. Buy them. They will prove a splendid investment.

The proprietors of the celebrated San Francisco Steam Pump received the **GOLD MEDAL** for the best Steam Pumps on exhibition at the last Mechanics' Fair in San Francisco. We have made a specialty of Tank Pumps and Boiler feeders, and challenge comparison with anything in use for simplicity of construction, durability and economy. Specimens of our work can be seen at the following places in Oakland:

J. M. WALKER, Twelfth street, between Jackson and Oak
MRS. BLAKE, Washington street, between Eleventh and Twelfth.
G. W. HUME, Cemetery road
H. D. BACON, Oak street
FASSKING'S PARK, Alameda

We would also call attention to our newly-invented, direct acting Steam Pump for artesian or other deep wells, with which water can be raised from any required depth, a specimen of which can be seen at the Palace Hotel, where our pump is 100 feet down the artesian bore, and is raising 150,000 gallons per day to the top of the hotel. Another of similar construction, but much smaller, may be seen at the Hammam Baths, in San Francisco. All persons wanting pumps will find it to their advantage to call and see us.

The Ways of Two Orators.

No man was so skillful as Pitt to answer the questions of his adversary without communicating the smallest information. He was never taken off his guard. If Pitt ever appeared in some eyes to grow warm as he proceeded, it was with a measured warmth; there were no starts and sallies and sudden emanation of the soul; he seemed to be as much under the minutest regulation in the most vehement swellings and apostrophes of his speech as in his coldest calculations. Fox, as an orator, appeared to come immediately from the forming hand of nature. He spoke well because he felt strongly and earnestly. His oratory was impetuous as the current of the river Rhone; nothing could arrest its course. His voice would insensibly rise to too high a key; he would run himself out of breath. Everything showed how little artifice there was in his eloquence. Though on all great occasions he was throughout energetic, yet it was by sudden flashes and emanations that he electrified the heart, and shot through the blood of his hearer. I have seen his countenance lighted up with more than mortal ardor and goodness; I have been present when his voice has been suffocated with the sudden bursting forth of a torrent of tears.

Carbonic Acid in Vegetation.

M. Boussingault has read an interesting paper on the vegetation of plants in an atmosphere deprived of carbonic acid. He experimented with some grains of maize, and showed how the absorption of carbonic acid was necessary for the development of the plant, and that the green coloring matter of the leaf was the exclusive agent of this absorption. The leaves of plants produced without light are pale, and this paleness is the cause of their pining and death. The maize grown in an atmosphere devoid of carbonic acid developed exactly as do plants in the obscurity of a cave; in both instances nutrition does not take place, in one case owing to the absence of carbonic acid, and in the other as a consequence of the green coloring matter not being present to absorb and decompose this gas. Claude Bernard agrees with these views, but Pasteur objected, asserting that mushrooms live without green coloring matter, to which M. Boussingault replies that moulds and mushrooms belong to a zone between the animal and vegetable kingdoms, and are not cases in point.

—The following unfeeling paragraph is going the rounds of the press: "The other day Sam Bowles went to church in Springfield, Massachusetts, and feeling the effect of his severe editorial labors during the week, fell to napping. By-and-by he was awakened by the preacher, who struck his desk and shouted, 'Who shall be able to stand up in the presence of the Lord on that awful day?' And Sam Bowles, rising in his pew, remarked: 'Charles Francis Adams is the only man that can do it, and I nominate him for the position.'"

If you wish one of the simplest and best furniture polishes, get a pint bottle and fill it with equal parts of boiled linseed oil and kerosene oil (any druggist has the former); mix and apply with a flannel. It will remove all scratches and white marks made by bruising. Destroy the rags or keep in open sight, as oiled rags have been known to ignite spontaneously.

Remember, that the talent of turning people into ridicule, and exposing to laughter those one converses with, is the gratification of small minds and ungenerous tempers. A young person with this cast of mind cuts himself off from all manner of improvement. So said Addison long ago, and it is as true to-day.

—Is this from the Cincinnati *Times*, merely a hideous invention: In the charitable town of St. Louis they give tramps bread and butter with little nitroglycerine pills inside and then kick them. They go off.

—W. J. McCollum is among the visitors registered at Philadelphia. This must be the Mr. What You McCallum we so often hear spoken of in ordinary conversation.

REDUCTION IN GAS.

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

OFFICE OAKLAND GASLIGHT CO.,
February 1, 1875.

IN PURSUANCE OF THE POLICY followed by this Company since its formation, viz: to lower its rates as rapidly as is warranted by the growth of the city, the price of gas will be reduced on the

1st Day of March Next

—TO—

$4 25 PER 1,000 CUBIC FEET.

Considering the value of coal and labor, the limited use of gas, and the distance between the places of consumption,

Oakland will be the most cheaply lighted city in the Union.

This price will leave no valid excuse for the use of any illuminant but Coal Gas, along the lines of the Company's mains, a large part of which are now, and have been since they were laid, unproductive of income.

The advantages to be reaped by the public from Cheap Gas are—

1st.—A daily saving in the cost of one of the necessaries of life.

2d.—A decrease in the number of destructive fires caused by the use of the volatile distillates of Petroleum.

3d.—Saving of human life by substituting stationary lights for bottle lamps.

4th.—The most convenient and safest light brought within the means of the most economical household.

However small the house, the economy will be great. If insured the rate of premium will be lessened; if not insured, the risk of loss will be decreased.

This reduction can only be profitable to the Company by the accession of a sufficient number of new consumers to compensate for the lessening of its current receipts, and it will become the interest of all consumers of gas to induce their neighbors to adopt this light, in order that further reductions may be made in the future.

The attention of consumers is also directed to the use of gas for heating and cooking. In Europe and the Eastern cities it has been adopted to a great extent, and its use is constantly extending.

It is to be hoped that this movement will be accepted in the spirit which has inspired it, and which has always characterized the Company, viz.:

That the Interests of Consumers and the Company are Identical.

The Company are constantly advised of all changes in modes of manufacture and distribution, and will at all times avail itself of any real improvements which tend to improve quality and lessen price.

Superintendent.
